Provider feedback:

- “This is the second such conference that I have participated in. Each time, the conference was well-run and informative. I appreciate the opportunity it gives to clarify what information specifically is lacking and/or needed for the determination. The conference facilitator was knowledgeable, efficient and pleasant to work with.”
- “Thank you for the webinar this morning; it was very informative. It would be really nice if this was eligible to providers in Illinois. So many times I have felt like, if I could just talk to someone about this appeal, the outcome would be different. Hopefully this opportunity will be available to us in Illinois soon.”
- “I find these Telephone Discussions very helpful, and I am glad C2C is conducting them. I am glad we have the opportunity to participate and hope they continue.”
- “Thank you again for communicating with us and allowing us the opportunity to present verbal testimony through the phone discussion process. The scheduled call went as planned without any issues, and we are looking forward to participating again in the future.”
